Commitment to Corporate Social Responsibility

PROMAN recognises that its operations have an effect on the communities and environment in which it operates. In light of this, PROMAN is committed to operating in a socially responsible manner, supporting a number of local communities and social / charitable causes, as well as running its operation in an environmentally sustainable manner.

Charitable Donations Policy

PROMAN is committed to supporting charities that make a real difference to our local community, and as such we particularly support those that include care for the sick and the disabled, youth and children and medical research.

With increasing requests for contributions and donations to various charitable organisations and initiatives, the Directors of PROMAN have decided to commit to certain organisations on an annual basis. This guarantees the charity organisations and/or initiative meets our standards. Therefore, in response to donation requests, PROMAN will instead offer to make contributions to our preferred charities on behalf of the requesting organisations, and not directly to the subject charity or initiative.

However, PROMAN is also dedicated to the formal relationships we have with our clients and have budgets in place to support charitable initiatives on application from those Clients who have a current Partnership Agreement with PROMAN.

We do not give money to individuals, religious, ethnic or political groups or third-party fundraising. With all the donations we make, PROMAN aims to be a responsible member of the local community.

The organisations PROMAN and our Employees are currently supporting directly via individual, and team fundraising platforms are:
